

# How do I print from a PDF document

## Solution

---

From the **File** menu, click **Print**. Under **Printer**, select the **Print as a PDF** option. Click **Print**. In the **File name** box, enter the required name. Click **Save**.

Windows 10 is an operating system that starts fast and provides built-in security. In Windows 10, you can print a document to PDF.

To print to PDF:

- 1) Open the required document.
- 2) From the **File** menu, click **Print**.
- 3) Under **Printer**, select the **Print as a PDF** option.
- 4) Click **Print**.
- 5) In the **File name** box, enter the required name.
- 6) Click **Save**.
